

A row of five rolls of hook and loop fastening material, arranged from left to right in the colors red, red, yellow, yellow, and blue. The rolls are stacked slightly offset, showing the texture of the material.

# LOVETEX

Supplier of Hook and Loop Fastening System

[www.lovutex.com.tw](http://www.lovutex.com.tw)

# 100% Nylon Sew-on Hook & Loop

- Available in a full range of sizes and colors.
- Excellent performance for sewing applications.
- For garment, sports and medical industries.

# 100% Polyester Sew-on Hook & Unnapped Loop

Water, acid and UV resistant.

# T/N Sew-on Hook & Loop

Constructed with Polyester base and Nylon top, a more economical choice.

# Fire Retardant Sew-On Hook & Loop

- 100% nylon woven.
- FAR 25.853 (a)/F25.1(a)(1)(ii) and FMVSS No. 302-1972.
- For automotive and aircraft industries.

# Rubber Base Pressure Sensitive Adhesive Hook & Loop

**Rubber base adhesive applied to the back of Hook and Loop works well on most applications.**

# Unnapped Loop

- 100% Nylon woven.
- Neat appearance and softer touch against skin.
- For medical products, infant products, apparel accessories, and sporting equipment.

# Soft Hook

- 100% Nylon woven with thinner mono-filament.
- Softer touch against skin.
- For medical applications, infant products, etc.

# Mushroom Hook

- Provide a thin closure and high gripping performance.
- For non-frequent openings and closures.

# High-Frequency Welding Hook & Loop

- A non-tacky adhesive pre-coat applied to the back of Hook and Loop.
- Activated by ultrasonic machinery or heat-generating equipment.

# Uni-Tape

- Mixed hook and loop separable fasteners comprise a base fabric on one surface.
- No color variation between hook and loop.
- Neat appearance and softer touch against skin.
- For medical product, garments, infant products and toys, etc.

# Flame Retardant Yarn Hook & Unnapped Loop

- 100% Polyester
- Washing 10 cycles according to AATCC-TM 61-2A-2013(49°C\*45min/cycle)
- Meet FAR 25.853(a)(Amdt.25-116) & Appendix F Part I (a)(1)(ii)
